# Press Release

## **Dauphin County Technical School Performs Drug Search**

Dauphin County Technical School, in conjunction with the Lower Paxton Police Department's K-9 unit, performed a routine drug search of the school today, December 18, 2008, as part of a continued effort to discourage students from using drugs and bringing them onto school property.

Lower Paxton's K-9 unit searched the school building and the student parking lot for more than an hour, and found no evidence of drugs.

Principal Peggy Grimm states, "This is a routine check that many schools are doing now. We did not expect to find any specific evidence, and are pleased with the outcome."

Please contact the Dauphin County Technical School Community Relations office with any questions.
